My Background and History with Animals: My first dog was a little Sheltie named Linus. I remember him letting me touch his snout, and running around with my brother and I. And, I remember how car sick he got every single time we took him anywhere. And we took him everywhere!, I've never been without pets of all different kinds my entire life. My mom even owned a pet store for a couple of years when I was a kid, and I spent a couple of summers as forced labor!, After that, I worked in a couple more pet stores, a dog kennel (yuck!), and went to a year of vet tech school, before deciding to go to the U of MN and get a degree in something completely different., While going to school I started working at a pet supply store called Urbanimal. After a year of working in store, I was asked to do some dog walking and pet sitting. I loved it! I stayed there for a couple of more years, and in 2006 went out on my own., It's been great, and I love what I do! I continue to grow my knowledge of animals and thier care through a variety of sources- books, magazines, seminars, confrences, classes, etc. and I encourage my employees to do the same. My goal is to give people the peace of mind of leaving the care of thier pets in my hands, and being able to help owners in maintaining a high level of quality in thier lives as well as the lives of thier pets.
